Producing your list of publications from *MyDI-fusion*

Connect to *MyDI-fusion* at https://difusion.ulb.ac.be with your ULB NetID.

In the left-hand column, select the format of the list of publications you want:

- Required by FNRS
- Compliant with ULB CV   } Compliant with the Open Access Decree
- Custom list

⭐ For ULB researchers, the lists of publications produced by DI-fusion are the only official ones in WBF. Only these lists may be submitted with any application form (e.g. for research credits, promotions, etc.).

The legal protection of researchers in Belgium

Belgian law protects you : it entitles you to **RETAIN** the right to:

- grant o**pen access on the internet** to the manuscript (preprint or postprint) of any journal article stemming from research that has received at least half of its funding from public sources, **after a period** of
  - 12 months after publication for social sciences and humanities
  - 6 months for other scientific disciplines,
- regardless of the contract signed with the publisher
- including articles published before the relevant law came into effect (15-09-2018).

This is an imperative right; it applies regardless of the law under which the contract was signed, provided that there is a connecting factor located in Belgium. (Code of Economic Law, Book XI, article XI.196 §2.1)

ULB UNIVERSITÉ LIBRE DE BRUXELLES

OPEN ACCESS

DI·fusion

Applying the WBF Open Access Decree at ULB

ULB Open Access policy

Any researcher who has a contractual or statutory link with the University is required:

- to **input** the full list of their publications into DI-fusion in order to create their official list of publications at ULB;

- to **upload the full text** of their publications to DI-fusion (author's final manuscript as approved for publication [postprint] or publisher's version) immediately upon acceptance for publication;

- to make the full text of their publications **available to the public in open access**, immediately or after a period prescribed by the publisher, it being understood that **for any publication released from 14 September 2018 onwards** in a periodical published at least once a year, and which is the result of a research during which the author was affiliated with the ULB or with another higher education institution of the Wallonia-Brussels Federation, this period may not exceed **6 months** after publication for science, technology, and medicine, **or 12 months** for social sciences and humanities.

Based on Décret visant à l'établissement d'une politique de libre accès aux publications scientifiques (open access) of the Wallonia-Brussels Federation (WBF).
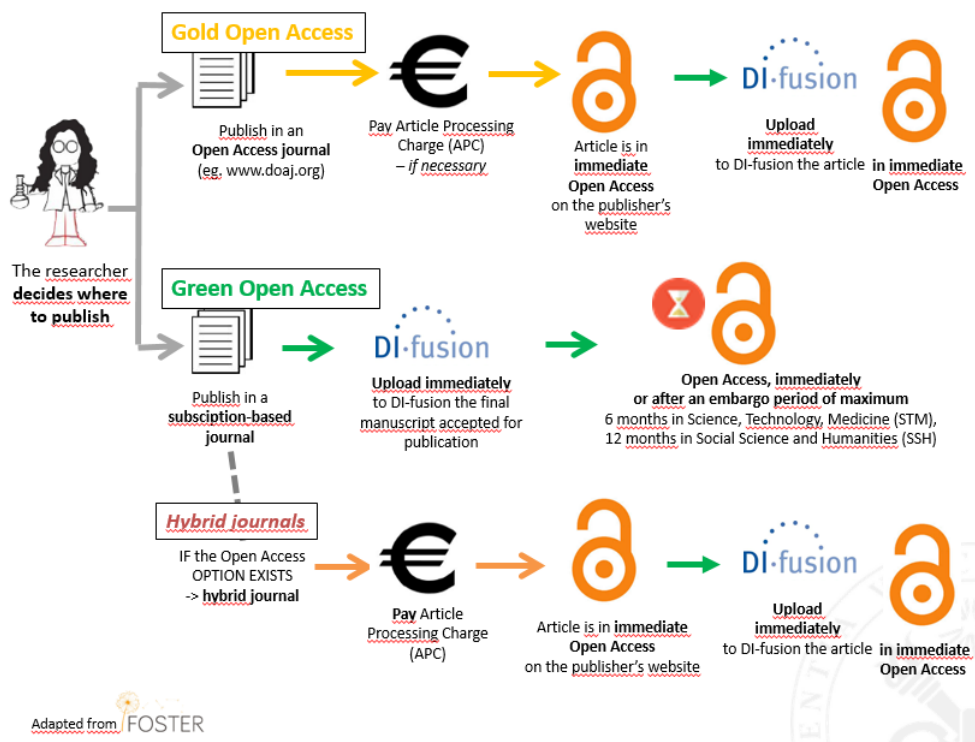

https://difusion.ulb.ac.be

Publications concerned by the Open Access Decree

All publications that are :
- published in a periodical issued at least once a year
  = article; review, letter to the editor ; conference paper published in proceedings issued as a journal; conference poster published in a journal and conference abstract published in a journal
- AND published from 14 September 2018 onwards
- AND presenting results of a research during which at least of the authors was affiliated with the ULB or with another higher education or scientific institution of the WBF.

Publishing venues and uploading to DI-fusion

Adapted from FOSTER

Publication versions

Preprint	Your manuscript unpublished or submitted for publication
Postprint	Your final manuscript after peer review, as approved for publication in a journal but before being laid out by the publisher
Published version	The publisher's version, as published with the journal's layout (usually a PDF file)

Version to be uploaded to DI-fusion

Gold Open Access	Upload the publisher's version in immediate open access without embargo
Green Open Access	Upload the postprint version in open access and specify an embargo period of maximum 6 months (STM) or 12 months (SSH)
Hybrid Open Access	Upload the publisher's version in immediate open access without embargo

Uploading to *MyDI-fusion* publications concerned by the Open Access Decree

Connect to *MyDI-fusion* at https://difusion.ulb.ac.be with your ULB NetID.

Input the metadata of your article or import them from the DOI.

★ If your article is issued from research during which you were *not* affiliated with ULB or a WBF university, uncheck the adhoc box at the top of the screen.

Upload the full-text of your article (postprint or publisher's version) **in open access** (Internet access).

▶ **Specify the end date of the embargo period** if necessary : publication date (online if the article is available online before the print version) +6 months in Science, Technology, Medicine or +12 months in Social Sciences and Humanities. E.g. : article published on 15/01/2020 +6 months = 14/07/2020 or +12 months = 14/01/2021. The file will automatically become accessible to the public at the end of the embargo period.

▶ **Choose the terms of use** for your file : by default, the DI-fusion terms of use apply. Some publishers require a Creative Commons licence CC BY NC ND to be used for the postprint (Green Open Access) or for the publisher's version (Gold and Hybrid Open Access).

★ Your article will appear in your list of publications ONLY IF it complies with the Open Access Decree – if it is not, it will remain in the area « *Your references to be completed* » in *MyDI-fusion*. In this case, edit the reference to be completed and upload the required text file in open access. Or add the DOI : if your article was published in an Open Access journal under a Creative Commons licence the PDF will automatically be imported and uploaded.
